

Peace of Moisture Mind[®]

Moisture damage prevention process

Step 4: Implement

ABSORDEL™

ABSORCADEMY™

ABSORPARTNER™

- Education of loading personnel.
- Set up of a rigid Supply Chain.

Peace of Moisture Mind[®] - POMM

A well-executed moisture damage prevention strategy is much more than just “adding a few desiccants”. POMM is Absortech’s step-by-step process, based on knowledge gained over decades. It covers the customer’s entire Supply Chain from their upstream supplies through packaging, loading, and shipping as well as the amount and types of desiccants to be used and how to make sure they are made available when needed and that loading, and packaging personnel are duly educated. All this to ensure goods arrive in perfect condition and that the buyer is satisfied.

The POMM steps can be used one-by-one, or seamlessly linked in an **AbsorTotal™**.

Step 4: Implement

Absortech is a globally present desiccant company. When including our network of AbsorPartners and distributors there is pretty much no location we are unable to deliver to.

By IMPLEMENT, we outline how AbsorRange™ products are delivered in the best possible way. But, also to ensure loading personnel and other stakeholders are informed about how to install the products and what to be considered when designing internal packaging solutions.

AbsorDel™

We can combine deliveries from own Absortech companies and complete coverage by using a network of Partners and distributors.

AbsorCademy™

Is our educational package where we can educate users and packaging engineers in desiccant knowledge. Web-based or at site.

AbsorPartner™

Absortech has a developed network of AbsorPartners and distributors. Meaning, we can design a global supply chain.

IMPLEMENT INPUT

- **Customer point of use.**

VALIDATE OUTPUT

- **Optimized supply chain solution (landed cost and sustainability optimized).**
- **Education of concerned stakeholders.**

POMM CONCEPTS USED:

ABSORDEL™

ABSORCADEMY™

ABSORPARTNER™

Implement in practice

Ramp up

Making sure all customer's invoice address, delivery addresses, customer P/N, forecasts, etc., are duly registered in Absortech ERP system. Applying initial samples approval if applicable.

Educate

Absortech can participate in writing customers 'Installation guidelines to ensure that all loading personnel is duly educated to correctly install the desiccants.

Each product in AbsorRange™ has self-instructive, animated installation guidelines.

Education preferable takes place through web-meetings.

Order & Delivery

Orders to Absortech can be provided in different ways. For quality reasons, we prefer having written orders, including the order number and P/N.

Our outbound supply chain includes Group capabilities and is complemented by a strong network of partners and distributors. Allowing us to deliver to almost any place in the world.

Global Statistics

All companies in Absortech operate the same ERP system. Apart from generating traditional statistics per invoice and/or delivery address, we can provide global statistics usage. When sales to the final customer are made via an Absorpartner or distributor, they are prompted to prove customer-specific consumption via a web application.
